FOCUSSED ON HELPING PROTECT
THINGS YOU HOLD PRECIOUS.

DOMINATOR SECTIONAL DOORS

When it comes to protecting your assets and family, you can't buy better than a Dominator Sectional Door and opener.

People often underestimate the impact of a beautifully designed garage door. As one of the largest doors in the home, it generally takes up a significant proportion of a home's street frontage, and can make or break the look of your home's facade.

Available in a wide range of styles and colours, you'll enjoy advantages like its smooth, quiet action along with Dominator's commitment to quality and providing you with a Home Safe Home and reliable operation for years to come.

Dominator Sectional Doors are custom manufactured in New Zealand to your specific opening dimensions.

CHOOSING A DOMINATOR DOOR IS EASY.

Step 1: Discover your options

Talk to your dealer or visit www.dominator.co.nz to find out all the available options, including colour, style, finish, opener and accessories.

Step 2. Onsite consultation

Call your local dealer or 0800 DOMINATOR (366 462) to book a free site measure and quote.

Step 3: Installation

We'll advise you on manufacturing times, and make sure we deliver your garage door on time. Your dealer will book in a time to install and demonstrate your new garage door and opener.

INSULATION OPTIONS

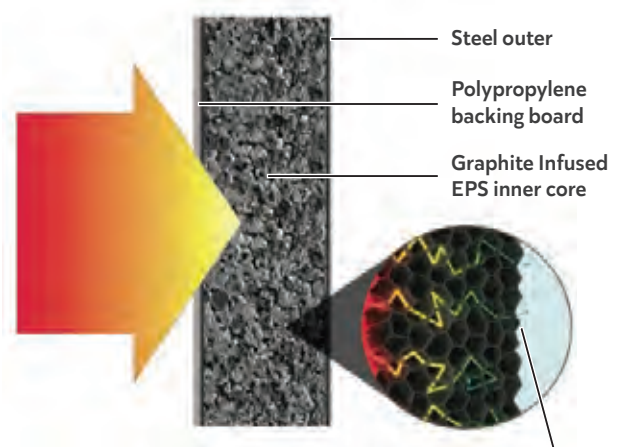

THE SMART CHOICE FOR HOME OWNERS

If you are serious about insulating your home, we recommend that you also consider insulating your garage door. Graphite Infused EPS insulation is an optional extra that can be added to a range of our popular Sectional Doors.

Adding a layer of insulation to your garage door also acts as a two-way noise barrier. It helps to keep out undesirable noise and contain noise within the garage, for a noticeably quieter garage compared to a non-insulated door.[^]

HOW GRAPHITE INFUSED INSULATION WORKS

Graphite Infused EPS insulation offers exceptional insulation technology, whereby panels absorb infrared energy and reflect heat, providing up to 20% better insulation performance than traditional EPS. They also contain no harmful CFCs or HCFCs.[#]

Radiant heat is reflected within the cell structure as it travels through insulation

WINDOW OPTIONS

ADD SOME LIGHT TO YOUR GARAGE

Many of our garage doors can be customised to suit your tastes. One way in which you can do this is by adding window panels. Not only do they add curb appeal, they provide additional light.

SECURE DOOR OPENERS

Dominator garage openers provide sophisticated design along with Tri-Tran+ remote control technology for added security. With over 309 trillion trillion possible code combinations, combined with our proven multi-frequency platform, peace of mind has never been more assured. Our openers also offer Intelligent Sensitivity System (ISS) which stops the door moving if there is an obstruction, and Pet & Pedestrian Mode which provides a limited opening for non-vehicular access.

OPTIONAL ACCESSORIES

INFRA-RED SAFETY BEAMS

Infra-red safety beams are perfect if you have young children or pets. If the beam is broken while the door is closing, the door will automatically stop and reverse. We strongly recommend safety beams on all automatic garage doors.

ENTRY KEY PAD

Optional keypad allows entry to the garage without a remote transmitter. Simply use a PIN to enter the house rather than using a transmitter.

EXTRA REMOTES

Talk to your Dominator dealer if you need a replacement remote or additional remotes for your family.

AUTO-LOCK

With this smart keyless technology, every time you close your garage door the Auto-Lock sends a heavy-duty bolt through the guard rail helping to prevent thieves from being able to force it up and open.

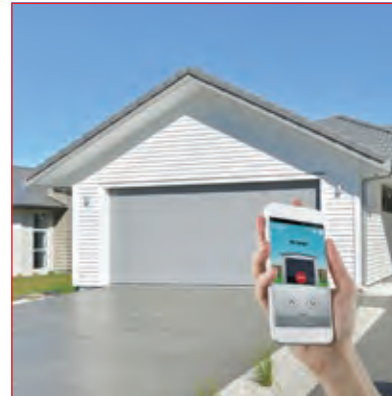

RECHARGEABLE BATTERY BACKUP

In the event of a blackout or other break to the power supply, the opener will still be operational with a rechargeable battery backup.

[^]Subject to cellular and WiFi connection and availability.

^{*}For safety reasons, the installation of Safety Beams is required when a Garage Door can be operated by smartphone. AS/NZS 60335.2.95:2012

A SMARTER WAY TO CONTROL YOUR GARAGE DOOR*

Dominator's optional Smart Phone Control Kit lets you control your garage door with your smart phone wherever you are in the world.

Real time alerts: Monitor your garage door 24/7[†] and receive notifications if it is in need of a service.

Customisation: Customise to suit you, from partial opening modes to restricted door access times.

Activity log: Our app can alert you whenever your garage door is operated and lets you view the usage history.

Smart control: Download and operate your garage door from our app. It's that easy.

Compatible with:   
Siri, Google Home, Alexa.

DOMINATOR COLOUR CHART

TOUGH AND STYLISH STEEL

When it comes to manufacturing our garage doors, we only use the best materials. All of our pre-painted steel is made and tested for New Zealand conditions. Dominator prefers to use COLORSTEEL[®] where available, to provide excellent colour performance and scratch resistance.

Dulux Powder Coatings also offer a wide range of powder coating colours and finishes if your preferred colour is not shown.
